

Integra

Features

- Extra high concentrate ultraviolet stabilisation to combat colour fading and cracking
- Steel plates mounted to the door and frame allow the toilet to be padlocked
- Tank lid lifts and stays up to allow easier cleaning – flushing handle remains to the side
- Contoured and slanted tank surface to facilitate fluid run-off and easy cleaning
- Wide door opening gives feeling of spaciousness
- Neatly recessed door handle that is easily identified
- Mirror and coat hook fitted as standard

The Integra Unit may be used with the following accessories:

Bactisan Hand Sanitising Spray

- Costs less 'per push' than gels
- Disperses evenly creating less waste
- Saves on labour – you refill less often
- 9000 uses per refill
- Patented no-drip pump system
- Features unique connector – opens and closes automatically when pouch is removed

Airworks Odour Control Disks

- Replaces urinal blocks with a patented, odour-targeting technology
- Fast acting and easily replaced
- Effective over twice as long as traditional 'para' blocks without the harsh chemical exposure
- Works more subtly... softer, more pleasing fragrance
